

Homebrewed - Licenses and Acknowledgements on Google Platforms

Published date: 16 September 2026

Effective date: 16 September 2026

Version: 1.1

This document identifies the licence governing Homebrewed for Android and acknowledges independently licensed software, fonts, icons, services and data used by the application. Homebrewed is a software product of baseworks.tech.

Section 1: Homebrewed ownership and application licence

Except for the independently licensed materials identified below, Homebrewed's software, design, documentation, branding and original content are proprietary to baseworks.tech, registered in the

Netherlands under Chamber of Commerce number (KvK) 98170643, VAT number NL005312934B1, with postal address Box E1586, Oder 20, 2491 DC Den Haag, Netherlands.

No ownership in Homebrewed is transferred to the user. The Homebrewed Terms of Use grant a limited licence to install and use the Android application. Rights in third-party material remain with the corresponding authors and licensors. Nothing in the Homebrewed Terms of Use restricts a right granted directly by an applicable open-source, font or open-data licence.

Section 2: Google Play, Android and Google ML Kit

Google Play is a distribution service operated independently by Google. Use of Google Play is governed by the Google Play Terms of Service at <https://play.google.com/about/play-terms>. Google Play's terms do not replace the independent licences governing the components listed in this document.

Android Open Source Project and AndroidX components included in the application are licensed principally under Apache License 2.0. Copyright notices and NOTICE material shipped by those components continue to apply. Android, Google Play and Google are trademarks of Google LLC; their identification does not imply endorsement of Homebrewed.

Homebrewed uses Google ML Kit barcode-scanning libraries. Those Google-provided libraries and services are subject to the applicable ML Kit Terms of Service at <https://developers.google.com/ml-kit/terms>, Google APIs terms and accompanying notices. ML Kit is not represented here as open-source software merely because it is distributed in the Android application.

Homebrewed uses Google Play Billing Library to request product information, open the Google Play purchase interface, query current one-time purchases and acknowledge completed purchases. Google Play Billing Library is distributed under the Android Software Development Kit License Agreement at <https://developer.android.com/studio/terms> and includes accompanying third-party licence and attribution notices. Google Play Billing is not represented here as open-source software.

Section 3: Open Food Facts

Homebrewed uses product information and images made available by Open Food Facts at <https://world.openfoodfacts.org/>. Open Food Facts is a collaborative database and is independent from baseworks.tech:

- The Open Food Facts database is available under the Open Database License 1.0.
- Individual database contents are available under the Database Contents License 1.0.
- Product images are available under the Creative Commons Attribution-ShareAlike licence, subject to any additional rights in product packaging and graphical elements.

Product information and images displayed in Homebrewed are attributed to Open Food Facts. Modified or user-entered Homebrewed records are not represented as verified Open Food Facts records. The app's use of Open Food Facts material does not imply endorsement by Open Food Facts.

Section 4: JavaScript software

The following direct production dependencies are declared by the Homebrewed client. Versions are the versions resolved in the production lockfile at the draft review date. @capacitor/ios may exist in the shared development lockfile but is not a shipped Android runtime merely because it is installed in the workspace.

Component	Licence or notice
-----------	-------------------

@capacitor-community/sqlite	MIT
-----------------------------	-----

@capacitor/android	MIT
--------------------	-----

@capacitor/app	MIT
----------------	-----

@capacitor/barcode-scanner	MIT
----------------------------	-----

@capacitor/clipboard	MIT
----------------------	-----

@capacitor/core	MIT
-----------------	-----

@capacitor/filesystem	MIT
-----------------------	-----

@capacitor/preferences	MIT
------------------------	-----

@capacitor/share	MIT
------------------	-----

@capacitor/status-bar	MIT
-----------------------	-----

@ericblade/quagga2	MIT
--------------------	-----

@mdi/js	Pictogrammers notice; icons under Apache License 2.0 or identified source licences; code under MIT
---------	--

@mdi/react	MIT
------------	-----

@reduxjs/toolkit	MIT
------------------	-----

@zxing/browser	MIT
----------------	-----

@zxing/library	Package metadata declares MIT; its distribution also contains Apache License 2.0 and a separate jai-imageio notice reproduced below
----------------	---

jszip	MIT or GPL-3.0-or-later; Homebrewed uses it under MIT
-------	---

qrcode	MIT
--------	-----

react MIT

react-dom MIT

react-easy-crop MIT

react-loading-skeleton MIT

react-redux MIT

react-router-dom MIT

react-spinners MIT

These packages bring runtime subdependencies under compatible independent licences, including MIT, ISC, 0BSD, BSD-2-Clause, BSD-3-Clause, Apache-2.0, Unlicense and zlib terms. The corresponding package metadata and licence files in the locked production dependency tree form part of this notice. Development-only dependencies are intentionally excluded from this customer-facing inventory.

Section 5: Native Android software

The native Android application contains the following principal runtime components in addition to the JavaScript packages identified above. The final publication copy must be generated from the exact signed release bundle because Gradle can resolve newer transitive versions and can select versions different from a library's published POM.

SQLCipher and biometric-support code are present through the SQLite integration even though the current Homebrewed Android database configuration does not enable SQLCipher encryption or biometric database authentication. Their notices are included because their code is packaged into the application.

The release bundle can also contain transitive Google Play Billing, AndroidX, Google Data Transport, Kotlin, FlatBuffers, protobuf and other support components. Their embedded metadata, licence files and NOTICE files remain applicable. Before release, this table and the reproduced notices must be checked against the Gradle release runtime classpath and the contents of the Android App Bundle.

Section 6: Rust household-protocol software

Homebrewed includes its own homebrewed-household-protocol Rust library under the MIT License. Its principal direct production crates at the draft review date are:

Crate Licence declared by crate

base64 MIT or Apache-2.0

chacha20poly1305 MIT or Apache-2.0

hex MIT or Apache-2.0

hkdf MIT or Apache-2.0

p256 MIT or Apache-2.0

rand_core MIT or Apache-2.0

serde MIT or Apache-2.0

serde_json MIT or Apache-2.0

sha2 MIT or Apache-2.0

thiserror MIT or Apache-2.0

uniffi MPL-2.0

These crates bring transitive production dependencies under their independently declared licences, principally MIT or Apache-2.0, with other compatible notices where identified in Cargo.lock and the crates' packaged metadata. Mozilla Public License 2.0 applies to the UniFFI material covered by that licence. Build-only and development-only crates are not necessarily shipped as executable application code. The release audit must distinguish linked runtime code from build tools.

The source for UniFFI is available from the UniFFI project at <https://github.com/mozilla/uniffi-rs/tree/v0.29.3>. The covered source-code form is governed by the Mozilla Public License 2.0 at <https://www.mozilla.org/en-US/MPL/2.0/>. The signed-release audit must preserve UniFFI's notices and confirm that recipients are told how to obtain the exact covered source corresponding to the distributed executable, including any modifications, if any, made by baseworks.tech.

Section 7: Fonts

Homebrewed bundles the following fonts under the SIL Open Font License, Version 1.1:

- Grape Nuts: Copyright 2003 The Grape Nuts Project Authors.
- Nunito: Copyright 2014 The Nunito Project Authors.

The complete SIL Open Font License text appears in Section 13.

Section 8: Copyright notices

The MIT-licensed components retain the notices supplied with their distributions, including:

- Copyright © 2020–2024 Quéau Jean Pierre (@capacitor-community/sqlite).
- Copyright © 2020–present Ionic (Capacitor plugins).
- Copyright © 2017–present Drifty Co. (Capacitor).

- Copyright © 2017 David Hu (react-spinners).

Copyright notices for the Rust crates listed in Section 6 (and their transitive dependencies) are retained as declared in their respective upstream repository source code and Cargo manifest metadata.

The Pictogrammers icon collection used through @mdi/js is made available under the Pictogrammers Free License notice: icons are distributed under Apache License 2.0 or their identified source licences, while non-icon code is under MIT. The Pictogrammers and Material Design Icons names identify their respective projects and do not imply endorsement of Homebrewed.

Section 9: MIT License text

The following text applies to the MIT-licensed components identified above, together with their respective copyright notices.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form,

that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

(a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

(b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names,

trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

Section 13: SIL Open Font License 1.1 text

The following licence applies separately with each font's copyright notice in Section 6.

SIL OPEN FONT LICENSE Version 1.1 - 26 February 2007

PREAMBLE

The goals of the Open Font License (OFL) are to stimulate worldwide development of collaborative font projects, to support the font creation efforts of academic and linguistic communities, and to provide a free and

open framework in which fonts may be shared and improved in partnership with others.

The OFL allows the licensed fonts to be used, studied, modified and redistributed freely as long as they are not sold by themselves. The fonts, including any derivative works, can be bundled, embedded, redistributed and/or sold with any software provided that any reserved names are not used by derivative works. The fonts and derivatives, however, cannot be released under any other type of license. The requirement for fonts to remain under this license does not apply to any document created using the fonts or their derivatives.

DEFINITIONS

"Font Software" refers to the set of files released by the Copyright Holder(s) under this license and clearly marked as such. This may include source files, build scripts and documentation.

"Reserved Font Name" refers to any names specified as such after the copyright statement(s).

"Original Version" refers to the collection of Font Software components as distributed by the Copyright Holder(s).

"Modified Version" refers to any derivative made by adding to, deleting, or substituting -- in part or in whole -- any of the components of the Original Version, by changing formats or by porting the Font Software to a new environment.

"Author" refers to any designer, engineer, programmer, technical writer or other person who contributed to the Font Software.

PERMISSION & CONDITIONS

Permission is hereby granted, free of charge, to any person obtaining a copy of the Font Software, to use, study, copy, merge, embed, modify, redistribute, and sell modified and unmodified copies of the Font Software, subject to the following conditions:

- 1) Neither the Font Software nor any of its individual components, in Original or Modified Versions, may be sold by itself.
- 2) Original or Modified Versions of the Font Software may be bundled, redistributed and/or sold with any software, provided that each copy contains the above copyright notice and this license. These can be included either as stand-alone text files, human-readable headers or in the appropriate machine-readable metadata fields within text or binary files as long as those fields can be easily viewed by the user.
- 3) No Modified Version of the Font Software may use the Reserved Font Name(s) unless explicit written permission is granted by the corresponding Copyright Holder. This restriction only applies to the primary font name as presented to the users.
- 4) The name(s) of the Copyright Holder(s) or the Author(s) of the Font Software shall not be used to promote, endorse or advertise any Modified Version, except to acknowledge the contribution(s) of the Copyright Holder(s) and the Author(s) or with their explicit written permission.
- 5) The Font Software, modified or unmodified, in part or in whole, must be distributed entirely under this license, and must not be distributed under any other license. The requirement for fonts to remain under this license does not apply to any document created using the Font Software.

TERMINATION

This license becomes null and void if any of the above conditions are not met.

DISCLAIMER

THE FONT SOFTWARE IS PROVIDED "AS IS", WITHOUT WARRANTY OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO ANY WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE AND NONINFRINGEMENT OF COPYRIGHT, PATENT, TRADEMARK, OR OTHER RIGHT. IN NO EVENT SHALL THE COPYRIGHT HOLDER BE LIABLE FOR ANY CLAIM, DAMAGES OR OTHER LIABILITY, INCLUDING ANY GENERAL, SPECIAL, INDIRECT, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, WHETHER IN AN ACTION OF CONTRACT, TORT OR OTHERWISE, ARISING FROM, OUT OF THE USE OR INABILITY TO USE THE FONT SOFTWARE OR FROM OTHER DEALINGS IN THE FONT SOFTWARE.
